

ECHO QUARTERLY: WINTER 2018 PARTNER GUIDE

This document serves to inform partners with quarterly series details in efforts to increase awareness and leverage opportunities around upcoming ECHO series.

The goals of this document are:

- To communicate in a timely and efficient way with our partners around upcoming series.
- Create a space to share series-specific needs and an opportunity to discuss opportunities to leverage and maximize partner networks.
- Provide support and suggestions for partner engagement within their relevant communities to support series marketing efforts.

***THIS COMMUNICATION IS FOR INTERNAL USE ONLY CREATED
EXCLUSIVELY FOR PARTNERS OF ECHO COLORADO**

COALITION MANAGEMENT:

Goal: Provide experienced coalition leaders with the knowledge and strategies to improve their effectiveness in managing coalitions

Audience: Individuals who have acted in a leadership capacity for a coalition for greater than 1 year

Series Details: Coalition leaders can improve the effectiveness of their coalitions by strengthening relationships among diverse stakeholders and creating an environment sustained by a shared set of values.

REGISTRATION CLOSING MARCH !! COORDINATING AFTER CANCER BEHAVIORAL HEALTH SUPPORT:

Goal: This series aims to provide care coordinators with the skills and background knowledge to describe the psychosocial issues for patients after cancer treatment and use relevant behavioral health strategies and resources to support cancer survivors in their communities.

Audience: Participants should be working in primary care or cancer centers within the state of Colorado as a care coordinator (including both non-licensed and licensed) for after cancer treatment patients

COMING SOON

TEAM-BASED CARE COORDINATION:

Goal: Support non-licensed care coordinators to work at the top of their scope.

Audience: Non-Licensed Care Coordinators

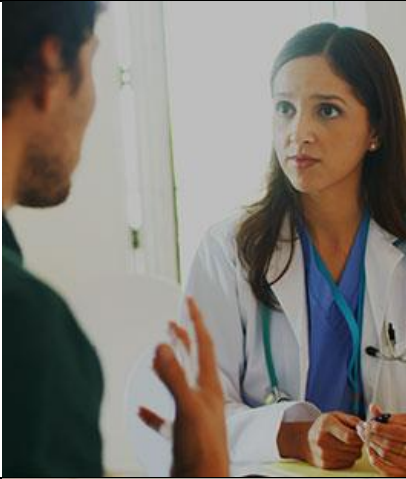

Series Details: Sessions will introduce, build upon, and hone relevant skills for effective team-based care coordination for non-licensed staff working with patients.

HEPATITIS C:

Goal: This series aims to increase the knowledge and comfort of primary care providers to address the healthcare needs of patients with this disease.

Audience: Primary Care Providers

Series Details: TBD

STRATEGIES FOR BEHAVIORAL HEALTH INTEGRATION:

Goal: This series will assist providers in developing strategies to resolve common ethical dilemmas, implement and operationalize tools linked to financial sustainability, and discuss ways providers can be a leader in integrating patient care.

Audience: Behavioral Health Providers working in a newly integrated or integrating practice

Series Details: TBD

ORAL HEALTH:

Goal: This series will focus on supporting those implementing preventative oral health interventions.

Audience: Dental Health Professionals (including dentists and hygienists)

Series Details: TBD
