Some Projects Ideas for the Southwest Colorado Healthcare Sector Partnership Alliance:

- Develop high school curriculum and programming related to healthcare pre-career exploration and planning including; work-based learning experiences, internship and apprenticeship opportunities, Speaker’s Bureau with skills panels, curriculum feedback, career pathways materials
- Develop and implement apprenticeship programs in healthcare workforce areas of needs including health information technology, Community Health Workers, billing and coding, etc.
Create a plan and clearinghouse for behavioral health trainings and continuing education for area healthcare professionals
Create an advisory panel for area health professional education programs that encourage the development of curriculum content that serves and rural and underserved populations
Convene a workgroup related to telehealth and related issues including implementation of telehealth services within local healthcare practices (physical setting, staff training for support, infrastructure, etc)
Coordinate a collaborative for care coordination that includes opportunities to discuss training needs, systems, and infrastructure support
Discuss the development of preceptor opportunities for healthcare professions students and collaborate to solve local clinical training issues like sharing resources for medical simulation experiences and maximizing limited clinical rotation opportunities
Develop a webpage with live links to training and education resources on the SWCAHEC website (and/or other related websites)
Other ideas will come from SWC Healthcare Sector Partnerships participants!
